THE 4TH ASIAN WINTER SCHOOL ON STRINGS, PARTICLES AND COSMOLOGY

JANUARY 11 - 20, 2010
MAHABALESHWAR, INDIA
www.icts.res.in/program/asian4

This School is being organized as a program of the International Centre for Theoretical Sciences of TIFR.

It forms part of an ongoing series of Asian Winter schools organized by China, India, Japan and Korea. The previous Schools were held in Korea, Japan and China. The current school combines with the 4th edition of the Asian Schools on Particles, Strings and Cosmology held annually in Japan. The current school is also a joint APCTP-ICTS activity and replaces the 14th APCTP Winter School on String Theory.

The School will cover various areas in String Theory, High Energy Physics and Cosmology. The intended audience consists of senior graduate students as well as practising researchers. The lectures will cover a selection of basic areas as well as advanced topics at the forefront of current research.
