

ICTS Seminar

Title : An introduction to topological quantum computation with $SU(2)_k$ anyons

Speaker : Claire Levaillant, Paris

Date : Thursday, January 24, 2019

Time : 3:00 PM

Venue : Emmy Noether Seminar Room, ICTS Campus, Bangalore

Abstract : I will introduce the topic and discuss main questions such as universality and entanglement.

(The speaker's latest affiliation was QMath Copenhagen).
