

VOLUNTEER FOR ICTS-NIAS MATHS CIRCLE

Are you fascinated by the endless mysteries of mathematics?

Would you love to work with bright young mathematical minds and participate in their journey of mathematical discovery via the Math Circles?

Would you like to sit down and solve math challenge problems just for the fun of it?

If you say *Yes!* to all of the above, then reach out to us to volunteer in the role of Math Circle Volunteer. We are targeting graduate students, research scholars, post-docs and faculty members of reputed institutions, with an enthusiasm for mathematics. But we would also welcome any other member of the public who has had a strong mathematics education and would like to associate with our initiative.

Note -

Volunteer for a 2-3 hours session on alternate Sunday mornings for at least 4 sessions in a row. A modest honorarium will be paid to cover transport costs.

Venue for the sessions will be ICTS (Hesaraghatta) or NIAS (IISc campus).

Initially, the programme will be broadly based on 8th-9th grades' curriculum.

Selection is at the discretion of the organizers.
